

Apply to Become a Qualified FamilySearch Third-party Solution Provider

IMPORTANT - READ BEFORE APPLYING:

API access is ONLY available for organizations with software development experience and application marketing history.

We DO NOT accept applications for:

- Personal or individual use
- Student academic projects
- Submitted in languages other than English
- Free open-source tools without a business marketing model of executable code
- Prototype or proof-of-concept projects
- Browser extensions

The FamilySearch API provides person/tree data only - NOT searchable historical records.

If your application uses AI on data provided by FamilySearch, you must agree to disclose what and how the AI tool is used.

If your project doesn't meet these requirements, PLEASE DO NOT SUBMIT!

1. Full name (first and last): *

Daniel Giardina

2. Email address: *

daniel.giardina@gmail.com

3. Company or organization: *

Fine di Mondo APS

Claude is active in this tab group

4. Phone number (include country code and area code, if applicable): *

+393403404397

5. Country - state / province of residence (e.g., USA - State): *

Italy

6. Website URL (current or future product site): *

<https://el-fontanin.web.app/>

7. Provide a detailed description of the solution that you plan to build. *

IL FONTANIN is a community genealogical tool for the Verona territory (Villafranca, Povegliano, Sommacampagna). Integrates local historical documents (parish records, Scaligeri, Austria-Hungary, civil status) with FamilySearch GEDCOM editor. Cross-device sync for collaborative research

8. What makes your solution different from existing genealogy tools (see <https://www.familysearch.org/en/innovate/solutions-gallery>) and the FamilySearch.org website itself? *

IL FONTANIN is exclusively dedicated to Verona territory with focus on Scaligeri, Longobard, Austro-Hungarian documentation. Integrates local sources not on FamilySearch. Modern UX for historical genealogy. Community-driven, archival transparency. Local niche vs FamilySearch global approach

9. What types of data will your application ADD to FamilySearch Family Tree? (Read-only apps are discouraged. Check all that apply.) *

☒ New persons/individuals

✳️ Claude is active in this tab group

☒ Relationships (parent-child, spouse, etc.)

- ☒ Facts and life events (birth, death, marriage, etc.)
- ☒ Source citations and attachments
- ☒ Memories (photos, documents, stories)
- ☐ Altro

10. **Estimated Volume:** How many of the combined additions (persons, relationships, facts/events, sources, etc.) do you estimate your application will contribute to FamilySearch annually? *

- ☒ Hundreds
- ☐ Thousands
- ☐ Hundreds of Thousands
- ☐ Millions

11. Do you have access or ownership of external historical records, archives, or genealogical collections that are NOT available through FamilySearch? *

- ☐ Yes - ownership
- ☒ Yes - access only
- ☐ No - ownership nor access
- ☐ Don't know

12. If you answered "Yes" to question 11, please list the specific record collections, archives, newspapers, parish records, or vital records you have access to (e.g., 'Spanish parish records 1500-1900', 'UK newspaper archives', 'German vital records'). Include the source/provider name if applicable. Also, please submit another application to FamilySearch.

✱ Claude is active in this tab group

Archivio Diocesano di Verona (parish records 1500-1900, Villafranca/Povegliano), Archivio Scaligero, Austria-Hungary records (1867-1918), Italian civil status. Access: authorized researchers, diocesan consent. No ownership: source attribution required

13. What other business, technical, and FamilySearch resources are needed to create your application? *

Resources: Firebase backend, GEDCOM client-side, FamilySearch API. FamilySearch: read/write API access, webhook sync. Support: API documentation, testing environment. Local partners: Archivio Diocesano, Verona genealogical associations, local researchers

14. Summarize your marketing strategy. *

Target: Verona aristocratic families, local genealogists, historical researchers. Channels: word-of-mouth, Archivio Diocesano, Verona genealogical associations, university (history), local conferences. Positioning: 'Genealogy of Verona territory, documented, reliable, community-driven'

15. Provide any additional comments regarding your request for API access.

IL FONTANIN is a non-profit, community-driven project to preserve genealogy of Verona territory. Focus: historical authenticity, archival transparency, local collaboration. Commitment: ethical API usage, GDPR privacy, attribution to local archives. Cultural experiment, non-commercial
